OBJECTIVE

To work in a challenging working environment with a progressive organization where I can effectively utilize my potential to create and develop efficient and intuitive user interfaces for the Web and secure a challenging leadership position by applying creative problem solving and management skills with a growing company to achieve optimum utilization of its resources and maximize profits.

PROFILE SUMMARY

- Versatile UI/UX Developer with **9 years** of experience designing, developing, and managing complex e-commerce, finance sites and internal portals.
- Write robust front-end code with **HTML5, CSS3, CSS pre-processing platforms(LESS, SCSS), Twitter Bootstrap4, JavaScript, JQuery, Angular, JSON and JavaScript libraries** to implement enterprise-class web applications.
- Translate business needs and product requirements into intuitive and innovative user interfaces and develop detailed mock-ups, wire-frames and prototypes using **Adobe tools (Photoshop, Adobe XD)**, to effectively communicate interaction and ideas. Integration of mock-ups into live projects.
- Act in the capacity of an eCommerce, finance application UI/UX Developer to actively participate in the definition, design, development, testing and implementation of functionalities.
- Participates in design reviews and provide input to design recommendations
- Solve complex technical problems that other team members may encounter, review and enforce the quality of code written within the team.
- Continuously collaborate with our product management and external development teams that use Agile processes.
- Good interpersonal skills, Commitment, result oriented, hard working with a high desire to learn new Technologies & tools.
